Profile

Computer Science student at FAST University with hands-on experience in software development, systems programming, and web technologies. Capable of delivering complete projects independently, from design through deployment. Passionate about Artificial Intelligence and building reliable, well-engineered software solutions.

Work Experience

11/2024 – PRESENT REMOTE, GLOBAL

Freelance Web Developer | Self-Employed

- Designed and developed responsive websites for local clients including portfolios, product pages, and small e-commerce solutions.
- Translated client requirements into working solutions using HTML, CSS, JavaScript, and PHP, managing projects end-to-end.
- Collaborated with clients and small businesses to assist in building and improving their digital presence, demonstrating strong communication and client-handling skills.

RAWALPINDI, PAKISTAN

Community Service Teacher | Farida Bashir Trust

- Volunteered as a teacher contributing to the trust's educational outreach programme.

Key Projects

QuickHire (Java, SQL Server)

Full-stack employment platform connecting individuals with local job opportunities, featuring user registration, listings, and matching logic.

Sonic Classic Heroes (C++)

2D platformer game with animations, sound, and character movement replicating the classic Sonic experience.

Buzz Bomber (C++)

Arcade game recreation with AI-controlled enemies, real-time scoring, and sound effects.

Mario Bros (x86 Assembly)

Playable Mario-style platformer written in low-level assembly, handling sprites, input, and game-loop from scratch.

Complete project repositories are uploaded on the GitHub.

Skills

Programming

C++, Python, Java, SQL, x86 Assembly, HTML/CSS, PHP

Tools

VS Code, IntelliJ IDEA, Git

Soft Skills

Teamwork, Problem-solving, Client Communication

Languages

English (Fluent), Urdu (Native)

Education

08/2024 – PRESENT ISLAMABAD, PAKISTAN

Computer Science | BSCS

FAST University Islamabad

Comprehensive CS programme covering programming, data structures, algorithms, databases, AI, and software engineering. Gaining strong analytical and problem-solving skills through a balanced mix of theoretical coursework and practical learning. Actively involved in academic activities with a keen interest in software development and emerging technologies.

Interests & Goals

Deeply passionate about Artificial Intelligence, renewable energy, and building solutions that make a real-world impact. Aspires to innovate at the intersection of software engineering and sustainable technology. Enthusiastic about game development and systems-level programming.
